

Add NRA Number when creating an HBL for shipment to/from USA

All World Shipping will be introducing some new procedures to ensure our agents remain in compliance with global shipping regulations.

For shipment to/from USA, NRA number will be required when creating an HBL to ensure that HBL's are tied to the appropriate NRA's. Please make sure you select related NRA Number for each of your HBL. The data can be presented to FMC for auditing purpose if required.

The new procedure will take place when you select "non-USA to USA" or "USA to non-USA" Shipment type.

The screenshot displays the 'Please Select Shipment Type' interface. On the left, there is a vertical list of options:

- non-USA to non-USA (For a Non USA Origin to Non USA Destination)
- non-USA to USA (AMS) (For a Non USA Origin to USA Destination) - **Highlighted with an orange arrow**
- USA to non-USA (For a USA Origin to Non USA Destination) - **Highlighted with an orange arrow**
- Worldwide to Japan (AFR) (For a All Origin to Japan Destination)
- Worldwide to Canada/Mexico (For a All Origin to Canada/Mexico Destination)

The main content area on the right is titled 'SHIPPING DOCUMENT' and contains the following text:

You are entering the NEWAWS SHIPMENT MODULE
Bookings, MBL instructions and HBL information flow from one form to the next eliminating unnecessary input.

The Booking and MBL information for FCL shipments will be sent directly to participating ocean carriers (APL, ANL, CMA-CGM, HAMBURG SUD, HAPAG-LLOYD, MAERSK, MSC, SAF MARINE, ZIM). The carriers will automatically email you back booking confirmations and MBL copies.

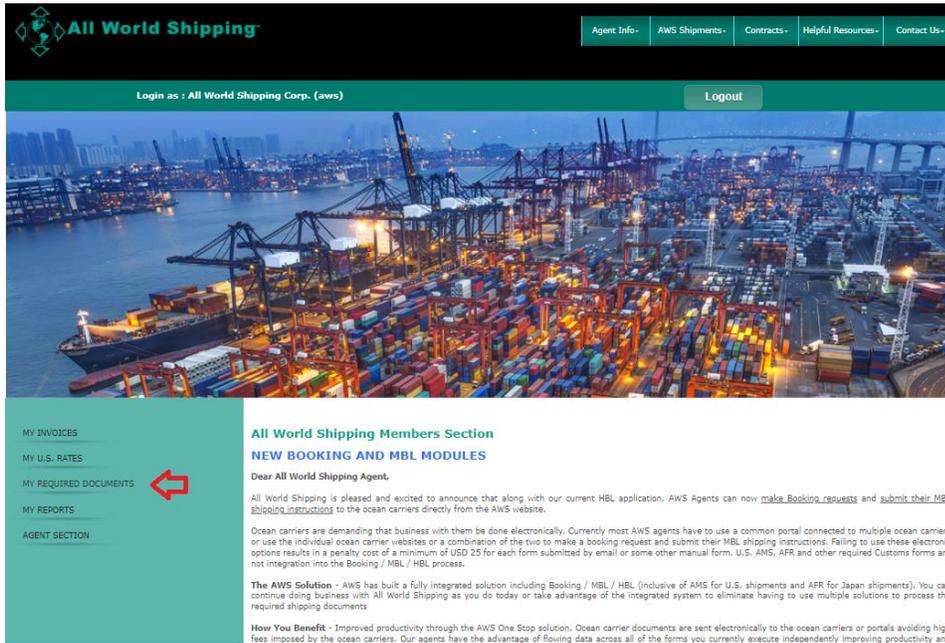

The process begins by clicking SELECT SHIPMENT TYPE in the top left corner of the page.

- To issue Booking + MBL + HBL select BOOKING and the necessary forms will load.
- To issue the HBL only you skip the Booking and MBL forms and just click HBL and the necessary forms will load.
- To issue the AMS or AFR + HBL only you skip the Booking and MBL modules and just click AMS/AFR and the necessary forms will load.

The AWS HBL can only be used for LCL and FCL containerized cargo.
The AWS HBL can be used for all countries except countries sanctioned by the U.S. Treasury Department (sanctioned country list [here](#)).

HBL for Shipment from USA

1. Login to AWS website using your WCA/GAA/Lognet/EGLN/IFC8 username/password.
2. Select 'MY REQUIRED DOCUMENTS'
